## PROFILE

---

Have gained good exposure to understand various aspects of Full Stack Java Development through Master's Program. Hence, I seek a challenging position in the area of Full Stack Java Developer, Front-End, Back-End, Software Development related fields where I can share my skills and expand my capabilities further in the pursuit of progressive career advancement.

## TECHNICAL SKILLS

---

**Programming Languages** : Java, HTML, CSS, JavaScript/TypeScript  
**Frameworks** : Spring boot, Angular, Hibernate, Spring MVC, REST API's  
**Database** : MySQL, Spring Data JPA, DDL, DML  
**Software Tools** : Eclipse IDE, VS Code, Spring tool Suite, GIT, Maven  
**Familiar Subject** : Data Structure and Algorithm, Operating System, DBMS

## EXPERIENCE

---

**Freelancing** April 2023 - Present  
*Software Development Engineer* Pune, India

- Led a team of 4 students in designing, developing, and maintaining **Java-based applications and systems**.
- Worked with good understanding of **Java's ecosystems, features, syntax, libraries, and frameworks**. They should also have a strong foundation in OOP patterns and concepts and improve invoicing accuracy by **100%**.
- Build **Spring applications** using various technologies including **Angular, HTML, CSS, and Docker**, handling various file formats like JSON.
- Implemented Java optimization techniques such as **Exception handling, multithreading, and OOPS** joins, resulting in a 20% decrease in processing time for handling a daily load of around **Big records**.

**Simplilearn** September 2022 - March 2023  
*Full Stack Java Developer* Pune, India

- Design & Develop the Application using **Spring REST Framework**.
- Designed and implemented advanced development capabilities using **Angular, Custom tags, and CSS** to develop the front-end UI pages.
- Worked on Hibernate to interact with **MySQL database** tables by using **CRUD operations**.
- Involved in the Analysis, Design, and Development phases of **SDLC Life-cycle**.

**Verificient Technology Private Limited** March 2022 - September 2022  
*Data Analyst* Pune, India

- Analysed more than 30,000 customer sales data to find the bottlenecks in the business process.
- Worked as Salesforce Admin and got exposure to the sales cloud.

**CWS Technology** November 2021 - February 2022  
*Java Developer Intern* Pune, India

- Designing, maintaining and building the reusable, efficient and reliable Java code.
- Implementing the Design Patterns like **Spring MVC** to improve the performance.
- Assisting in maintaining and updating existing applications and modules.
- Implementing GIT for version control.

## EDUCATION

---

**Padmabhushan Vasantdada Patil Institute of Technology, Pune** Pune, Maharashtra  
*Bachelors in Computer Science and Engineering* July 2017 - June 2022

**Katruwar Kabra Mantri College, Manwath** Manwath, Maharashtra  
*Senior Secondary School* April 2015 - Mar 2017
